

**READY TO END YOUR IT
FIREFIGHT?**

Will the redundancy ever end? Will you ever stop spending all day putting out fires? How do you ensure things get done right without so much time and attention?

Spending less time doing redundant tasks and more time focusing on ideas, solutions and innovations is good for you and your organization. It's easy too, with consistent, predictable automated IT workflows that automate repetitive maintenance tasks and let you go from reactive to proactive.

The **LANDesk®** management platform.

End your IT firefight now.

**“TOO MANY PRODUCTS,
TOO LITTLE TIME” RING
A LITTLE TOO TRUE?**

Does the time you spend learning and maintaining different products take away from your real job? Constantly holding your breath wondering if systems are up-to-date and secure?

There is an easier way—a way to control systems and security from a single management console with less effort, less training and little or no new infrastructure. There's even a secure, easy way to manage, secure and track systems from anywhere, using only the Internet.

The **LANDesk®** management platform.

Single console simplicity
Anytime, anywhere IT management.

**MORE QUESTIONS ABOUT
WINDOWS VISTA THAN ANSWERS?**

Knowing what you'll be up against when you migrate to Windows Vista can go a long way to preventing surprises and any late nights at the office. Which is where LANDesk® management solutions come in.

By solving potential problems associated with Windows Vista, they help take the worry and uncertainty out of getting ready to migrate, actually migrating, and whether or not applications are compatible.
